

## US-2 Beautification & Public Art Program Community Meeting

Tuesday, January 29th, 2019  
6:00 pm to 8:00 pm- Council Chambers  
13120 W. 13th Ave.  
*Light refreshments will be served!*

### What is the purpose?

The purpose of this meeting is to engage the community, through interactive workshop activities, to identify the vision and values of the community of Airway Heights. The workshop will build upon the identification of these visions and values to further explore how their defining characteristics can be applied to public art and landscape. The outcome of this work will shape the city's art program and will influence public art and landscaping along US-2 and across the city as a whole.

### Why it's important?

The US-2 Beautification and Public Art Program aims to address preferences for public art and landscape for the new roundabouts planned along the US-2 corridor. The program also aims to define a process for evaluating public art and landscaping for other public places in the City of Airway Heights. The new roundabouts offer a unique opportunity to immediately, aesthetically enhance the US-2 corridor by incorporating public art and/or landscaping that is of value to the community. This is why your participation in this community meeting is so important.

**We want to hear your voice**, so you can help us determine what public art means for the City of Airway Heights.

*If you can't make the workshop but have ideas and/or comments you want to have heard email them to Alicia Ayars, at [Alicia.Ayars@scjalliance.com](mailto:Alicia.Ayars@scjalliance.com)*
