

CAReS PHILOSOPHY

Airway Heights, Fairchild A.F.B., and Medical Lake Recreation Departments have formed a Youth Sports Organization which will be known as CAReS (pronounced cares) which stands for Communities Associated for Recreational Sports. CAReS will be administered by a board of these Recreation Departments and other representatives from all communities involved in the organization. CAReS will provide recreational sports with skill learning, sportsmanship, fun and participation as the main goals, not winning. All efforts will be directed into teaching the kids these goals. Any unsportsmanlike conduct by players, coaches, and / or parents will not be tolerated! Competition will always be involved in team sports, but the competitive spirit can be developed in each player's own personal goals and not forced on teams by coaches and parents. It will be the organization's policy to stress the importance of having the kids learn from this experience. Those coaches and parents who do not agree with this organization's philosophy are urged to participate in some other program. CAReS will be working continually to do all that it can to benefit the kids who will be involved in its sports programs.
